Obsolete Stargate Communication Board

Soon to be obsolete Digi-Board

Attention: Brown Thermoforming Customers Both Stargate & DIGI Communication Boards No Longer Available

The Stargate communication unit in your TCS computer system has been obsolete and unavailable for several years. Now, we have been informed by our supplier that the DIGI-Board units that replaced them are also being phased out of production. This board will be available for purchase for another six (6) months and then will no longer be manufactured.

To avoid any production interruptions we highly recommend that you take one of two actions immediately:

1. Call our Parts Department and purchase a spare DIGI-Board while they are still available, or
2. Contact our Kit Sales Department to schedule a complete upgrade of your current control package
